## **Job Application – Qualified Refrigeration Mechanic**

Green Efficient Living is an air conditioning, solar and electrical company based in Adelaide and rural South Australia and as our business is growing we are needing dedicated and hardworking teammates to add to it.

As a young and vibrant team, our staff are the epicentre of our business. We pride ourselves on providing a friendly, motivating and team focused atmosphere, that encourages decision making, growth and professionalism.

Green Efficient Living is looking for a Qualified Refrigeration Mechanic for immediate start. The right applicant will:

- Be self-driven, reliable and motivated.
- Be a positive individual with a good attitude.
- Possess leadership skills and the ability to work in a team environment.
- Possess the ability to work autonomously,
- Have great customer service and communication skills.
- Be able to both give and take direction.
- Be able to drive a manual vehicle.

The candidate MUST have the following:

- Certificate 3 in Refrigeration and Air Conditioning
- Driver's Licence.
- Up-to-date Restricted Electrical Licence for Refrigeration and Air Conditioning.
- Background knowledge in the installation of all domestic and commercial air conditioning systems.

The right candidate will be given:

- A fully maintained and stocked work vehicle.
- A company phone.
- A company uniform.
- An attractive salary and superannuation.
- Full-time hours with overtime and weekend work expected.
- Consistent education and the ability to keep learning and developing.
- A positive, motivated and team orientated environment.

NOTE: Please attach a CV that includes all of the relevant qualifications and experiences that you possess. Include all other licences that you deem applicable to the job. Please attach a cover letter that outlines why you think you will be suitable for the job and how you differ from others.
