

HVAC Apprentice (1st or 2nd Year)

MTAC Services is an air conditioning, solar and electrical company based in Adelaide and rural South Australia. We primarily perform general domestic and commercial air conditioning, solar, energy management and electrical work.

As a young and vibrant team, our staff are the epicentre of our business. We pride ourselves on providing a friendly, motivating and team focused atmosphere, that encourages decision making, growth and professionalism.

As an apprentice, you will be learning how to do specialised tasks through on-the-job training under the guidance of an experienced colleague. As part of your employment, you will also be enrolled at TafeSA at the expense of the MTAC Services to obtain your Certificate III in Air Conditioning and Refrigeration where you will be expected to actively participate and engage in learning as well as carry out all tasks to the best of your ability.

To be considered for this role, you must have:

- Refrigeration Handling - Trainee Licence (1st Year apprentice applicants won't have this yet)
- Electrical Workers Registration (1st Year apprentice applicants won't have this yet)
- Valid Driver's Licence and Reliable Transportation
must be able to drive manual transmission
- White Card
- National Police Clearance (within 12 months)
- Working Safely at Heights (or willing to obtain)
- Elevated Working Platform (or willing to obtain)
- First Aid & CPR (or willing to obtain)
- Full COVID-19 Vaccination (Digital Certificate)

The right candidate will:

- Intermediate knowledge of hand and power tools
- Have great written and verbal communication skills
- Be honest, punctual and reliable – essential
- Have the ability to take direction and show initiative
- Be enthusiastic to work; self-motivation is of extreme importance
- Have the required physical capabilities to perform the role

The role:

- Immediate start
- Permanent full time
- Monday to Friday
- Salary + super
- Comfortably read and interpret plans for any domestic install
- Installation of ductwork
- Run, flare, connect and bend pipework to an excellent standard and have a sound understanding of what is acceptable and not acceptable
- Pressurise, pressure test and place on evacuation to company standards
- Beginner level of commercial installation works – under supervision from Senior Technician
- Introduction to service works – with Senior Technician
- Maintain proper documentation (i.e. photo logging, task notes and applying labour in online company platform)
- Exceptional understanding of commissioning process, advanced additional refrigeration calculations
- Adhering to company policies as well as upholding company values

If you meet these requirements and this is the opportunity you have been looking for please email cover letter and resume to: hvac@mtacservices.com.au
